Barbara,

Attached is a clearer electronic version of the Appendix A chart incorporated into the MEDC v. WDNR stipulation. This is a pdf of Appendix A.

It reflects the status of each of the items as of March 18, 2016, when we submitted this chart to

the other party before submitting it to the court.

My apologies that it first appeared to you as incomplete, but now I see that is because the pdf automatically creates a second page with repeated the column headings even though there is no data on the second page. In light of this, please ignore the second page; page one contains the complete list of the items incorporated as Appendix A.

We are committed to service excellence.

Department clients visit our survey at <http://intranet.dnr.state.wi.us/int/legal/> to evaluate how I did.

hello jane – thank you very much for sending us the stipulation and order. would it be possible for you to check your scan to see if there might have been a glitch at appendix a – it looks like the first page scanned a couple times and the table might be incomplete.

again, thanks for providing this to us, barbara

Subject: Update on MEDC v. WDNR, case No. 15CV2409

Hello all,

Ahead of our planned call next week, I'm sending a copy of the stipulation and order in the declaratory judgment that Midwest Environmental Defense Center filed against WDNR in circuit court. The purpose of the action was to ask WDNR to act quickly to resolve the remaining 75 issues. You will recall I promised an update as soon as we had final language and I am pleased to report this is now signed by the court and is a final order.

I will be happy to describe this and answer any questions you have during our meeting. Our obligations under the stipulation include that we move along rule packages 3, 4 and 5 per the timelines incorporated where we have control over the progress.

The stipulation also involves storm water rules and serves as a binding commitment that we do the following: require WPDES coverage for landfills, not exercise our discretion to approve any “authorized local programs” or use “other environmental program” under NR 216.

Please forward to anyone else in your agency who may be interested in seeing this. Thank you.

We are committed to service excellence.
